## Research

Since 2007, the Research laboratories of ESC Lille and ESA (University of Lille 2) have joined to create a unique organization: the Lille School of Management Research Center.

More than a simple partnership, it is a one-of-a-kind merger between the research laboratory of a private business school and a state university.

The fields of expertise of this major centre include:

**Finance, Marketing, Project Management, Management, Economics, and Law.**

With

**more than 55 researchers**, the Lille School of Management has an international dimension, and its works lead to major innovations in the field of management science.
